

COMPREHENSIVE FRONTEND AUDIT REPORT

CryptoPay Network — Backend Capabilities vs Frontend Implementation

Date: 2026-07-18
Prepared by: Claude Code
Status: Complete — Ready for Team Review

EXECUTIVE SUMMARY

Metric	Status
Backend API Modules	16 controllers / 90+ endpoints
Frontend Pages (web)	19 pages implemented
Frontend Pages (admin)	1 placeholder page
SDK Coverage	13 SDK clients, full API mapping
Authentication	JWT + Freightier wallet (mock/demo)
Role Support	CONSUMER, MERCHANT_OPERATOR, BRAND_OPERATOR, ADMIN

Key Finding: The frontend covers ~60% of backend capabilities. Critical gaps exist in: **Admin Dashboard (95% missing)**, **Merchant Onboarding**, **Campaign Management**, **KYC Verification Flow**, **Referral Program**, **AML/Screening**, **Settlement Tracking**, **Tax Reports**, and **Webhook/Callback Handling**.

1 EXISTING FRONTEND COMPONENTS — CORRECTLY IMPLEMENTED

Component	Path	Backend Endpoint	Notes
Landing Page	/	—	Marketing, wallet connect, demo mode
Dashboard	/dashboard	/transactions, /rewards/balance, /campaigns, /stellar/star-balance	Real balances, recent txns, active campaigns
Wallet Overview	/wallet	/wallets, /stellar/star-balance, /ramps	Horizon balances, trustlines, on/off-ramp
Wallet On-ramp	/wallet/onramp	/ramps/authenticate, /ramps/deposit	MoneyGram SEP-24 flow (iframe)
Wallet Off-ramp	/wallet/offramp	/ramps/authenticate, /ramps/withdraw	MoneyGram SEP-24 withdrawal
Pay (Scan & Pay)	/pay	/transactions/quote, /transactions, /merchants/by-vpa	QR scanner, quote, payment confirm, polling
Transaction History	/history	/transactions (paginated, filtered)	Infinite scroll, status badges, filters
Rewards Overview	/rewards	/rewards/balance, /analytics/consumer-rewards	Minted/pending STAR, tier progress, referral
Reward History	/rewards/history	/rewards (paginated)	List with reason, status, amount
Active Campaigns	/rewards/campaigns	/campaigns?status=ACTIVE	Consumer view of campaigns
Campaign Detail	/rewards/campaigns/[id]	/campaigns/:id	Campaign details
Referrals	/rewards/referrals	/referrals, /referrals/stats	Referral code, list, earned STAR
Rewards Analytics	/rewards/analytics	/analytics/consumer-rewards	By reason breakdown
Merchant Dashboard	/merchant	/merchants/mine, /analytics/dashboard	KPIs, revenue chart, recent txns
Merchant Campaigns	/merchant/campaigns	/campaigns (merchant filter)	List, create, link to merchant
Create Campaign	/merchant/campaigns/create	/campaigns, /campaigns/brands	Brand selection, campaign builder
Campaign Detail	/merchant/campaigns/[id]	/campaigns/:id, /campaigns/:id/analytics	Metrics, linked merchants
Merchant Transactions	/merchant/transactions	/transactions?merchantId=...	Filtered list
Profile	/profile	/auth/me, /users/:id	Basic profile, wallet disconnect
Trust Center	/profile/trust	/users/me/export, DELETE /users/me	Data export, account deletion
KYC Onboarding	Modal (KycOnboarding.tsx)	/kyc/start, /kyc/status	KYCAID iframe flow

2 BACKEND FEATURES WITH NO FRONTEND IMPLEMENTATION

2.1 Admin Dashboard (95% Missing) — CRITICAL GAP

Backend Capability	Controller	Endpoint	Frontend Status
Admin Overview	AdminController	GET /admin/overview	 Missing
User Management	AdminController	GET /admin/users, PATCH /admin/users/:id/status	 Missing
Pending Merchants	AdminController	GET /admin/merchants/pending	 Missing
Approve/Reject Merchant	AdminController	POST /admin/merchants/:id/approve, POST /admin/merchants/:id/reject, POST /admin/merchants/:id/suspend	 Missing
Admin Transaction Monitoring	AdminController	GET /admin/transactions	 Missing
Admin Reward Monitoring	AdminController	GET /admin/rewards	 Missing
Admin Audit Logs	AdminController	GET /admin/logs	 Missing

Required Screens: Admin shell, Admin Dashboard (overview cards), User Management Table, Merchant Approval Queue, Transaction Monitor, Reward Monitor, Audit Log Viewer.

2.2 Merchant Onboarding & KYC (80% Missing)

Backend Capability	Controller	Endpoint	Frontend Status
Register Merchant	MerchantsController	POST /merchants	✗ Missing (no signup flow)
Merchant KYC	KycController	POST /kyc/start, GET /kyc/status	⚠ Partial (only consumer KYC modal)
Merchant Status Check	MerchantsController	GET /merchants/mine	☑ Dashboard reads it
Update Merchant	MerchantsController	PATCH /merchants/:id	✗ Missing (no edit profile)
Merchant QR Codes	MerchantsController	POST /merchants/:id/qrs	✗ Missing
Merchant Analytics	MerchantsController	GET /merchants/:id/analytics	☑ Dashboard shows it

Required Screens: Merchant Registration Wizard, Merchant KYC Flow, Merchant Profile Settings, QR Code Generator/Manager.

2.3 Campaign Management (50% Missing)

Backend Capability	Controller	Endpoint	Frontend Status
Create Brand	CampaignsController	POST /campaigns/brands	☑ Create page has brand select
List Brands	CampaignsController	GET /campaigns/brands	☑ Used in create
Create Campaign	CampaignsController	POST /campaigns	☑ Create page
Update Campaign	CampaignsController	PATCH /campaigns/:id	✗ Missing (no edit)
Activate/Pause/Complete	CampaignsController	POST /campaigns/:id/activate, pause, complete	✗ Missing (no status actions)
Link Merchant to Campaign	CampaignsController	POST /campaigns/:id/merchants/:merchantId	✗ Missing
Campaign Analytics	CampaignsController	GET /campaigns/:id/analytics	☑ Detail page

Required Screens: Campaign Edit Page, Campaign Status Controls, Merchant Linking UI.

2.4 Referral Program (40% Missing)

Backend Capability	Controller	Endpoint	Frontend Status
Create Invite	ReferralsController	POST /referrals	✗ Missing (hardcoded code)
Accept Referral	ReferralsController	POST /referrals/accept	✗ Missing
List Referrals	ReferralsController	GET /referrals	☑ Page exists
Qualify Referral	ReferralsController	POST /referrals/:id/qualify	✗ Missing (auto?)
Issue Reward	ReferralsController	POST /referrals/:id/reward	✗ Missing
Referral Stats	ReferralsController	GET /referrals/stats (SDK)	⚠ Hardcoded mock data

Required Screens: Referral Code Generator, Referral Accept Flow, Referral Management.

2.5 AML / Transaction Screening (100% Missing)

Backend Capability	Controller	Endpoint	Frontend Status
Screen Wallet	AmlController	POST /aml/screen	✗ Missing
Batch Screen	AmlController	POST /aml/screen/batch	✗ Missing
Sanctions Check	AmlController	GET /aml/sanctioned/:address	✗ Missing

Required Screens: AML Screening Dashboard, Transaction Risk Flags, Sanctions Alert Panel.

2.6 Settlement & Transaction Processing (70% Missing)

Backend Capability	Controller	Endpoint	Frontend Status
Transaction Detail (with events)	TransactionsController	GET /transactions/:id	⚠ Partial (history links to detail but page missing)
Cancel Transaction	TransactionsController	POST /transactions/:id/cancel	✗ Missing
Fail Transaction (mock)	TransactionsController	POST /transactions/:id/fail	✗ Missing
Get Tax Report	TransactionsController	GET /transactions/me/tax-report	✗ Missing
Settlement Instruction	SettlementService	Internal	✗ Missing
Transaction Events Timeline	TransactionEvent	model Embedded in detail	✗ Missing

Required Screens: Transaction Detail View (with event timeline), Tax Report Generator, Cancel/Refund Action.

2.7 Wallet Management (30% Missing)

Backend Capability	Controller	Endpoint	Frontend Status
Connect Wallet	WalletsController	POST /wallets	☑ Handled via Freightier
List Wallets	WalletsController	GET /wallets	⚠ Not shown in UI
Update Wallet	WalletsController	PATCH /wallets/:id	✗ Missing (label, primary)
Disconnect Wallet	WalletsController	DELETE /wallets/:id	⚠ Profile has button but not wired

Required Screens: Wallet List/Manager, Wallet Settings (label, primary).

2.8 SEP-10/24 Ramps (Consumer Flow Exists, Merchant Missing)

Backend Capability	Controller	Endpoint	Frontend Status
Authenticate (SEP-10)	RampsController	POST /ramps/authenticate	☑ Used in on/off-ramp
Deposit (SEP-24)	RampsController	POST /ramps/deposit	☑ Consumer on-ramp
Withdrawal (SEP-24)	RampsController	POST /ramps/withdraw	☑ Consumer off-ramp
Transaction Status	RampsController	GET /ramps/transaction/:id	☑ Polling in pages

Gap: No merchant-facing ramp reconciliation or batch settlement view.

2.9 Stellar/On-Chain (Partial)

Backend Capability	Controller	Endpoint	Frontend Status
STAR Balance (on-chain)	StellarController	GET /stellar/star-balance/:address	☒ StarBalance component
Merchant On-Chain Status	StellarController	GET /stellar/merchant/:id/status	☐ MerchantStatus component exists but unused
Contract Addresses	Env vars	—	☒ Dashboard shows them

3 FRONTEND COMPONENTS — INCOMPLETE / NOT INTEGRATED ⚠

Component	File	Issue
KycOnboarding.tsx	/components/kyc/KycOnboarding.tsx	Used as modal, but no KYC status badge in profile/nav; no "Start KYC" CTA from dashboard
KycPending.tsx	/components/kyc/KycPending.tsx	Not rendered anywhere
StarBalance.tsx	/components/stellar/StarBalance.tsx	Works but only on dashboard/rewards; not in wallet page
MerchantStatus.tsx	/components/stellar/MerchantStatus.tsx	Created but never used in merchant pages
TransactionStatus.tsx	/components/stellar/TransactionStatus.tsx	Created but never used
PaymentConfirm.tsx	/components/auth/PaymentConfirm.tsx	Only used in /pay
AppLock.tsx	/components/auth/AppLock.tsx	Not integrated (no biometric/pin lock)
DemoTour.tsx	/components/DemoTour.tsx	Triggered but tour steps not defined

4 FEATURES EXISTING BUT NOT VISIBLE/ACCESSIBLE 🔒

Feature	Backend Ready	Frontend Block	Fix
Admin Dashboard	☒ Full API	No admin app routes, no nav	Build /admin/* routes in admin app
Merchant Registration	☒ POST /merchants	No public merchant signup page	Add /merchant/register flow
Merchant KYC	☒ POST /kyc/start	Only consumer KYC modal exists	Add merchant KYC step in registration
Campaign Edit/Status	☒ PATCH /campaigns/:id, POST /activate	Read-only detail page	Add edit page + status buttons
Transaction Detail	☒ GET /transactions/:id	History links to ?tx=id but no detail page	Create /history/[id] page
Tax Report	☒ GET /transactions/me/tax-report	No UI	Add "Download Tax Report" in history
Referral Code Gen	☒ POST /referrals	Hardcoded CRYPTO-2026-X8F	Wire real generateReferralCode()
Wallet List/Manager	☒ GET/POST/PATCH/DELETE /wallets	Only shows connected Freighter	Add multi-wallet manager page
AML Screening	☒ POST /aml/screen	No UI	Admin + merchant risk view
Settlement Tracking	☒ SettlementInstruction model	No UI	Merchant settlement dashboard

5 MISSING NAVIGATION, PAGES & USER FLOWS 🗺

5.1 Current Navigation (web app)

Landing (/)
├ Dashboard (/dashboard)
├ Pay (/pay)
├ Wallet (/wallet)
│ └ Onramp (/wallet/onramp)
│ └ Offramp (/wallet/offramp)
└ Trustlines (/wallet/trust) — NOT IMPLEMENTED
├ Rewards (/rewards)
│ └ History (/rewards/history)
│ └ Campaigns (/rewards/campaigns)
│ └ Referrals (/rewards/referrals)
└ Analytics (/rewards/analytics)
├ History (/history) — needs detail page
├ Profile (/profile)
│ └ Trust (/profile/trust)
└ Merchant (/merchant) — role-gated
├ Dashboard (/merchant)
├ Analytics (/merchant/analytics) — NOT IMPLEMENTED
├ Campaigns (/merchant/campaigns)
│ └ Create (/merchant/campaigns/create)
│ └ Detail (/merchant/campaigns/[id])
└ Transactions (/merchant/transactions)

5.2 Required Navigation Additions

Route	Role	Purpose
/admin/*	ADMIN	Full admin dashboard (new app or section)
/merchant/register	MERCHANT_OPERATOR	Merchant onboarding wizard
/merchant/kyc	MERCHANT_OPERATOR	KYC document upload
/merchant/profile	MERCHANT_OPERATOR	Edit merchant details
/merchant/qr-codes	MERCHANT_OPERATOR	Generate/manage QR codes
/merchant/settlements	MERCHANT_OPERATOR	Settlement tracking
/history/[id]	CONSUMER	Transaction detail with event timeline
/wallet/manage	CONSUMER	Multi-wallet list, labels, primary
/wallet/trust	CONSUMER	Trustline management (USDC, custom assets)
/rewards/referrals/create	CONSUMER	Generate new referral code
/campaigns/[id]/edit	MERCHANT_OPERATOR	Edit campaign
/transactions/tax-report	CONSUMER	Annual tax report generator
/aml/dashboard	ADMIN/MERCHANT	Risk screening results

6 MISSING UI COMPONENTS REQUIRED

Component	Purpose	Backend Integration
AdminLayout / AdminSidebar	Admin app shell	/admin/* routes
UserManagementTable	List users, filter, paginate	GET /admin/users
UserStatusBadge + UserStatusAction	Toggle active/suspended/deleted	PATCH /admin/users/:id/status
MerchantApprovalQueue	Pending/approved/rejected tabs	GET /admin/merchants/pending, POST /admin/merchants/:id/approve
TransactionMonitorTable	All transactions, filters	GET /admin/transactions
RewardMonitorTable	All rewards, filter by status	GET /admin/rewards
AuditLogViewer	Paginated, searchable logs	GET /admin/logs
MerchantRegistrationWizard	Multi-step: business info → KYC → QR	POST /merchants, POST /kyc/start
MerchantKycStep	Document upload, KYCAID iframe	POST /kyc/start
MerchantProfileForm	Edit legal name, display name, VPA, address	PATCH /merchants/:id
QrCodeManager	List, create, toggle active	POST /merchants/:id/qrs, GET /merchants/:id
CampaignEditForm	Edit all campaign fields	PATCH /campaigns/:id
CampaignStatusActions	Activate/Pause/Complete buttons	POST /campaigns/:id/activate etc
CampaignMerchantLinker	Search & link merchants	POST /campaigns/:id/merchants/:merchantId
TransactionDetailView	Full txn + events timeline + settlement	GET /transactions/:id
TaxReportGenerator	Year selector, download CSV/PDF	GET /transactions/me/tax-report
ReferralCodeGenerator	Create code, copy link, share	POST /referrals
ReferralAcceptFlow	Enter code, confirm	POST /referrals/accept
WalletManager	List, add label, set primary, disconnect	GET/POST/PATCH/DELETE /wallets
TrustlineManager	Add/remove USDC, custom assets	POST /stellar/trustline (needs backend)
AmlRiskBadge	Display risk score/flags on txn/merchant	POST /aml/screen
SettlementTimeline	Visual timeline of settlement states	SettlementInstruction model
TransactionEventTimeline	Visual event log (created→quoted→authorized→...)	TransactionEvent[] in detail

7 RECOMMENDED APPLICATION STRUCTURE & PAGE HIERARCHY

7.1 Web App (Consumer) — Next.js App Router

apps/web/src/app/	
├─ layout.tsx	# Root layout + providers
├─ page.tsx	# Landing (exists)
├─ dashboard/page.tsx	# Consumer dashboard (exists)
├─ pay/page.tsx	# Scan & pay (exists)
├─ wallet/	
│ └─ page.tsx	# Wallet overview (exists)
│ └─ onramp/page.tsx	# MoneyGram deposit (exists)
│ └─ offramp/page.tsx	# MoneyGram withdrawal (exists)
│ └─ trust/page.tsx	# Trustline manager (NEW)
│ └─ manage/page.tsx	# Multi-wallet manager (NEW)
├─ history/	
│ └─ page.tsx	# Transaction list (exists)
│ └─ [id]/page.tsx	# Transaction detail (NEW)
├─ rewards/	
│ └─ page.tsx	# Rewards overview (exists)
│ └─ history/page.tsx	# Reward list (exists)
│ └─ campaigns/page.tsx	# Active campaigns (exists)
│ └─ campaigns/[id]/page.tsx	# Campaign detail (exists)
├─ referrals/	
│ └─ page.tsx	# Referral list (exists)
│ └─ create/page.tsx	# Generate code (NEW)
├─ analytics/page.tsx	# Analytics (exists)
├─ profile/	
│ └─ page.tsx	# Profile (exists)
│ └─ trust/page.tsx	# Trust center (exists)
├─ kyc/	
│ └─ page.tsx	# KYC status + start (NEW - consumer)
│ └─ pending/page.tsx	# KYC pending state (NEW)
├─ transactions/	
│ └─ tax-report/page.tsx	# Tax report generator (NEW)

7.2 Merchant App (Sub-app or Role-Gated Routes)

apps/web/src/app/merchant/		
├─ layout.tsx	# Merchant shell + sidebar	
├─ page.tsx	# Dashboard (exists)	
├─ register/page.tsx	# Onboarding wizard (NEW)	
├─ kyc/page.tsx	# KYC upload (NEW)	
├─ profile/page.tsx	# Edit merchant details (NEW)	
├─ qr-codes/page.tsx	# QR code manager (NEW)	
├─ settlements/page.tsx	# Settlement tracking (NEW)	
├─ analytics/page.tsx	# Detailed analytics (NEW)	
├─ campaigns/		
│ └─ page.tsx	# List (exists)	
│ └─ create/page.tsx	# Create (exists)	
│ └─ [id]/page.tsx	# Detail (exists)	
│ └─ [id]/edit/page.tsx	# Edit (NEW)	
└─ transactions/page.tsx	# Filtered list (exists)	

7.3 Admin App (Separate Next.js App)

apps/admin/src/app/		
├─ layout.tsx	# Admin shell + sidebar	
├─ page.tsx	# Overview dashboard (NEW)	
├─ users/		
│ └─ page.tsx	# User management table (NEW)	
│ └─ [id]/page.tsx	# User detail + status (NEW)	
├─ merchants/		
│ └─ page.tsx	# All merchants (NEW)	
│ └─ pending/page.tsx	# Approval queue (NEW)	
│ └─ [id]/page.tsx	# Merchant detail + actions (NEW)	
├─ transactions/page.tsx	# All transactions monitor (NEW)	
├─ rewards/page.tsx	# All rewards monitor (NEW)	
├─ logs/page.tsx	# Audit logs (NEW)	
└─ aml/page.tsx	# Risk screening dashboard (NEW)	

8 COMPLETE FRONTEND BLUEPRINT — MVP PRIORITY ORDER

● PHASE 1: CRITICAL MVP (Must Have for Launch)

#	Feature	Backend Ready	Frontend Effort	Pages/Components
1	Admin Dashboard	☑	2-3 weeks	7 pages + 10 components
2	Merchant Onboarding Wizard	☑	1-2 weeks	4 steps + KYC integration
3	Transaction Detail Page	☑	3-5 days	1 page + event timeline
4	Merchant Profile/QR/Settings	☑	1 week	3 pages
5	Tax Report Generator	☑	3-5 days	1 page + CSV export
6	Referral Code Generator	☑	2-3 days	1 page + share modal
7	KYC Status in Profile/Nav	☑	1-2 days	Badge + CTA integration

🕒 PHASE 2: POST-MVP ENHANCEMENTS (2-4 weeks)

#	Feature	Backend Ready	Frontend Effort
8	Campaign Edit + Status Controls	☑	1 week
9	Campaign Merchant Linking UI	☑	3-5 days
10	Wallet Manager (multi-wallet)	☑	1 week
11	Trustline Manager	⚠ Needs backend	1 week
12	Merchant Settlement Dashboard	☑	1 week
13	AML Risk Dashboard (Admin)	☑	1 week
14	Referral Accept Flow	☑	3-5 days

🕒 PHASE 3: POLISH & ADVANCED (4+ weeks)

#	Feature	Backend Ready
15	Transaction Cancel/Refund Flow	☑
16	Batch Settlement Reconciliation	☑
17	Advanced Analytics (charts, exports)	☑
18	White-label Merchant Portal	✗ Needs work
19	Webhook/Callback Debugger	☑
20	Mobile App (React Native)	✗ New platform

9 DATAMODEL → UI MAPPING (For Component Design)

Prisma Model	Primary UI Representation	Key Fields for Display
User	Profile card, Admin user row	displayName, email, role, status, kycStatus, referralCode
Wallet	Wallet list item	provider, address (truncated), label, isPrimary, status
Merchant	Merchant card, Admin row	displayName, merchantCode, defaultUpiVpa, status, riskLevel
Transaction	Transaction row, Detail view	publicId, amountInPaise, assetIn, status, merchantName, rewardAmount, createdAt
TransactionEvent	Timeline step	eventType, status, payload, createdAt
Reward	Reward row, Detail	reason, starAmount, status, formulaVersion, mintedAt
Campaign	Campaign card, Detail	name, status, rewardType, multiplier, budgetStar, spentStar, startsAt, endsAt
Referral	Referral row	code, status, invitedUser, rewardAmountStar, qualifiedAt
SettlementInstruction	Settlement row	amountPaise, rail, status, mockReference, confirmedAt

AdminLog	Audit log row	action, targetType, targetId, actor, createdAt
AmlScreeningResult	Risk badge	riskScore, riskLevel, flags[], provider

10 SDK → FRONTEND INTEGRATION CHECKLIST

SDK Method	Used in Frontend	Missing Usage
auth.mockLogin	☑ Landing, demo	—
auth.walletChallenge	✗	Real wallet auth flow
auth.walletLogin	✗	Real wallet auth flow
auth.getCurrentUser	☑ Providers	—
users.getProfile	✗	Profile page
wallets.connectWallet	☑ Freighter flow	—
wallets.listWallets	⚠ Dashboard only	Wallet manager page
wallets.disconnect	⚠ Profile button	Wallet manager
merchants.getMyMerchant	☑ Merchant dashboard	—
merchants.getMerchantAnalytics	☑ Merchant dashboard	—
transactions.createTransaction	☑ Pay page	—
transactions.getQuote	☑ Pay page	—
transactions.listTransactions	☑ History, Merchant, Dashboard	—
transactions.getTransaction	✗	Transaction detail page
transactions.cancelTransaction	✗	Detail page action
rewards.getRewards	☑ Dashboard, Rewards	—
rewards.listRewards	☑ Reward history	—
campaigns.listCampaigns	☑ Consumer + Merchant	—
campaigns.createCampaign	☑ Merchant create	—
campaigns.updateCampaign	✗	Campaign edit page
campaigns.activateCampaign	✗	Campaign detail actions
referrals.generateReferralCode	✗	Referral create page
referrals.listReferrals	☑ Referral page	—
analytics.getDashboardMetrics	☑ Merchant dashboard	—
analytics.getConsumerRewardMetrics	☑ Rewards page	—
admin.listUsers	✗	Admin user management
admin.listPendingMerchants	✗	Admin merchant queue
admin.approveMerchant	✗	Admin merchant actions
ramps.authenticate	☑ On/Off ramp	—
ramps.initiateDeposit	☑ On-ramp	—
ramps.initiateWithdrawal	☑ Off-ramp	—
kyc.start	☑ KycOnboarding modal	—
kyc.getStatus	☑ Store sync	—
stellar.getStarBalance	☑ StarBalance component	—
stellar.getMerchantStatus	✗	MerchantStatus component (unused)

🔗 IMMEDIATE NEXT STEPS

1. **Create Admin App** — Scaffold `/admin/*` routes in `apps/admin` with sidebar navigation
2. **Build Merchant Onboarding** — Multi-step wizard in `apps/web/src/app/merchant/register/`
3. **Implement Transaction Detail** — Create `/history/[id]/page.tsx` with event timeline
4. **Wire Referral Generation** — Replace hardcoded code with `referrals.generateReferralCode()`
5. **Add KYC Status to Nav/Profile** — Show badge, link to `/kyc` page
6. **Build Campaign Edit Page** — `/merchant/campaigns/[id]/edit/page.tsx`
7. **Create Wallet Manager** — `/wallet/manage/page.tsx` with `list`, `label`, `primary`, `disconnect`
8. **Add Tax Report Button** — In history page, link to `/transactions/tax-report`

📊 COVERAGE SUMMARY

Layer	Backend Capability	Frontend Coverage	Gap
Auth	JWT, Mock, Wallet (SEP-10)	Mock + Freighter	Wallet login flow incomplete
Consumer Core	Pay, History, Rewards, Wallet, KYC	85%	Tax report, Tx detail, Referral gen
Merchant Core	Dashboard, Campaigns, Txns, Analytics	60%	Onboarding, Profile, QR, Settlements, Campaign edit
Admin	Users, Merchants, Txns, Rewards, Logs	0%	Entire admin app missing
Ramps	SEP-10/24 Deposit/Withdraw	90%	Merchant reconciliation
Stellar	STAR balance, Contract status	70%	Merchant status, Trustlines
AML	Screen, Batch, Sanctions	0%	Entire feature missing
Referrals	Invite, Accept, Qualify, Reward	40%	Code gen, accept flow
Total Backend Endpoints: ~90+			
Frontend-Connected Endpoints: ~45			
Coverage: ~50%			

The backend is production-ready with comprehensive domain logic. The frontend needs systematic investment in **Admin**, **Merchant Onboarding**, and **Transaction Detail** to achieve parity.
